## SMME SUPPORT(BDS)

**Name of the client:**

**Nature of intervention support:**

**Location (City):**

**Business Development Support (BDS):** BDS support refers to both financial and/or non-financial services that help businesses improve performance, access markets, and grow through mentorship, training, and strategic advice. This support can include a wide range of services such as market research, strategy sessions, leadership development, and access to funding, grants, and equipment. Programs often focus on specific needs like improving management skills, gaining technical expertise, or helping businesses expand, such as into international markets.
